Front-end Development • Back-end Development • UI/UX Design • Microsoft Office Suite • Adobe Illustrator & Creative Cloud • Verbal & Written Communication • Troubleshooting • Program Installation • Mac OS Windows OS • Hardware Replacement • Database Management • Modem & Router Management

Experience

Full Stack Development Training   *University of Minnesota*   6/1/2020 - Current

- Built several full stack web applications while working within the Agile methodology.
- Acquired remote development experience while pair-programming on projects with strict requirements and deadlines.
- Grew in existing knowledge of front-end technologies (HTML, CSS, JavaScript) while becoming familiar with server-side technologies (Node, Express, SQL, MYSQL databases, Sequelize).

Front-end Developer, Marketing Manager, and IT Specialist   *Atlas Pet Supply*   11/1/2017 - Current

Development Experience
- Developed and maintained multiple static websites and an online store utilizing website editors where possible for rapid development and performing manual HTML & CSS alterations.
- Created an online training course for new staff members and regularly updated the program with new content.
- Managed all online accounts, social media profiles, and event schedules.

IT Experience
- Implemented a new business phone system, performed onsite troubleshooting of hardware and networks whenever issues arose and applied fixes where necessary.
- Updated to a new point of sale system, ported over all product and customer account data from the previous system, and remained on call for any questions that arose from staff members to provide additional training.
- Acted as the point of contact for any issues with printer malfunctions, web browser settings, network failures, phone system issues, or software functionality, and frequently coached staff through fixes on site or used remote login software to apply fixes manually.

CNC Machine Operator   *Accent Precision Wood Products*   10/1/2016 – 11/1/2017

- Calibrated the CNC machine at the start of each job to ensure accuracy of cut, replaced tools, and performed machine maintenance where necessary.
- Executed a variety of cutting programs using the CNC software and Windows XP server to navigate to new program files.
- Trained new staff to successfully operate the machine, perform regular maintenance tasks and fielded questions that arose from unique situations.

Education

North Dakota State University   *English/Communication*   08/1/2010 – 05/1/2015

- Dean's List Award Recipient
- House Manager: Theta Chi Fraternity
- Volunteer Coordinator: Volunteer Network
- Treasurer: NDSU Ballroom Dance Club

University of Minnesota   *Full Stack Web Development*   06/1/2020 – 08/24/2020
